

CY 2022 Greenhouse Gas Emissions

In accordance with the accounting and reporting standards of seven greenhouse gases in the Kyoto Protocol, EnCompass LLC measured and established a baseline of our greenhouse gas emissions for Calendar Year 2022 for the facility leased and controlled by the company.

EnCompass' GHG emissions report provides measurement of our Scope 2 as well as our Scope 3 emissions for CY 2022. EnCompass attests that the Scope 2 and 3 GHG emissions were calculated in accordance with the GHG Protocol Corporate Accounting and Reporting Standard

In calendar year 2022, EnCompass Scope 2 emissions measured approximately 89.68 metric tons CO₂e. Its Scope 3 emissions measured approximately 1,079.28 metric tons CO₂e. The entirety of EnCompass emissions are from the electricity and heat used in the facilities we leased during this year, which is commercial office space, and from employee business travel and commuting.

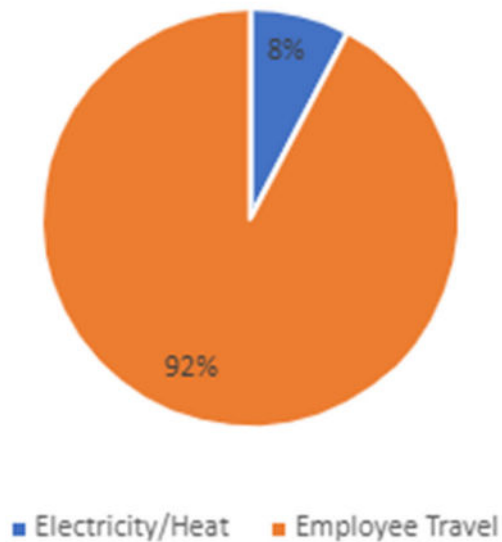

Reduction Targets

EnCompass LLC is dedicated to minimizing our greenhouse gas emissions and mitigating our impact on the climate. To drive progress, we have set our sights on annual reduction targets commencing in 2023. By establishing and achieving these objectives in the short and mid-term, we aim to attain net-zero emissions on or before 2032. Our commitment to these targets underscores our determination to contribute to a sustainable and climate-resilient future.
